Edlington HFR/FBAW Cambridge Rolls Price List

By virtue of twin pivots in each wing, the roll follows the contours of the land, allowing the roll to get its weight down evenly over the full quoted coverage.

HFR/FBAW are horizontally folding rolls that has the same twin pivots in each wing that the vertical roll has with the added advantage of a lower transport height. You can operate this roll without getting out of your tractor cab.

Coverage	22" rings	22" with breaker rings	24" rings	24" with breaker rings	26" rings
4.5m	P.O.A. (2.6T)	P.O.A. (2.85T)
