Edlington HFR Cambridge Rolls Price List

By virtue of twin pivots in each wing, the roll follows the contours of the land, allowing the roll to get its weight down evenly over the full quoted coverage.

HFR/AW - The AW range requires a tow bar.

HFR/HD as HFR/AW but with hydraulically operated drawbar can be used with a Disc Harrow or Presses. Should only be sold if this dual purpose is a necessity. Add £1000 to prices below.
